About Me

I am a results-driven and detail-oriented professional with over 1.5 years of experience in data analysis. Proficient in R, Python, and Excel, I possess a strong analytical skill set to derive meaningful insights from complex datasets. I am passionate about utilizing my analytical expertise to inform decision-making and improve operational efficiency. As a proactive and collaborative team member, I am dedicated to continuous learning and staying updated on the latest advancements in data analytics. Apart from this, I also do web development.

Experience

IT Technician

Tom Mboya University | Nairobi, Kenya | Jan 2024 - Current

- Currently engaged in assisting the campus IT department, actively involved in configuring and troubleshooting networks. I play a crucial role in ensuring the seamless operation of our IT infrastructure, working closely with the network administrator to optimize network connections. I also do computer repair and maintenance.

Lead

Google | Homa Bay, Kenya | Jan 2023 - Current

- As the GDSC (Google Developer Student Clubs) Lead, I have championed a dynamic and inclusive tech community at our academic institution. Leading a team of passionate individuals, I have overseen the organization of impactful events, workshops, and projects, creating a collaborative environment that empowers students to explore and excel in the realms of technology.

Freelancer - Web Application Developer

Wimedica | Homa Bay, Kenya | Nov 2023 - Jan 2024

- At Wimedica, I was part of the development team dealing with development of a web app design tool that played a crucial role of creating applications and linking them together without knowledge of any programming language required for a user to use it. The application was created with Next.js for frontend and PHP for backend. I got relevant experience working with this team,
